**Colorado Springs (January 15, 2018)** – Feld Entertainment, Inc., the worldwide leader in producing live touring family entertainment, announces it will bring the Academy Award® winning and number one animated feature film of all time, *Disney's Frozen*, to life. ***Disney On Ice presents Frozen*** visits Colorado Springs from March 23-25 for six shows at The Broadmoor World Arena.

Tickets, which start at \$20, will go on sale Friday, January 19 at 10 a.m. They can be purchased at [BroadmoorWorldArena.com](http://BroadmoorWorldArena.com), [AXS.com](http://AXS.com), at the venue box office or via phone at (719) 520-SHOW. The complete adventure of the Academy Award® winning tale will be told live for the first time in this production, capturing the dynamic of two royal sisters, Anna and Elsa. Anna, a girl with an extraordinary heart, embarks on an epic journey to find her sister, the magical Elsa, who is determined to remain secluded as she finally feels free to test the limits of her powers. Rugged mountain man Kristoff, his loyal reindeer Sven, the lovable and hilarious snowman Olaf, and the mystical trolls help Anna along the way in this story about love conquering fear. Audiences will get to sing along with such musical masterpieces as "Let it Go," "Do You Want to Build a Snowman?" and "Fixer Upper."

"In our more than 30 years of producing *Disney On Ice* shows, Feld Entertainment has been waiting for a film like this," says producer Nicole Feld. "While it might seem obvious that *Frozen* is well suited for the ice, this *Disney On Ice* production will touch audiences emotionally through innovative show elements and world-class skating."

To create a completely immersive experience for the audience, the set design will encompass the space from the ice surface up through the air, drawing everyone into the story and closer to the characters. Families will feel that they are trekking up to the North Mountains with Anna, Kristoff and Sven, and they will tangibly experience the storm inside Elsa. Elsa's magic will be enhanced by state-of-the art special effects while her emotions will be conveyed through powerful skating.
